

PUPPY PRESCHOOL® PACKAGE (OPTIONAL)

Why choose the AVBS Puppy Preschool® Package?

Australian Veterinary Behaviour Services offer a comprehensive Puppy Preschool® package in addition to the theoretical and practical instructor training workshop. The package which is based on force free, reward-based methods, includes ongoing support from our qualified trainers and veterinarians, is reviewed and updated every 24 months to ensure we provide the latest research/information and ideas to our clients and will ensure your name is added to the AVBS endorsement list for Recommended Puppy Preschool Classes!! The material provided takes the hassle out of planning your classes and the training videos show instructors how to correctly teach the basic commands such as sit, drop and loose lead walking. This package is the one stop shop, making it the best puppy preschool package on the market!

The Puppy Preschool® package is only available upon completion of the AVBS one day [Puppy Preschool® Workshop](#) training session. We believe training of Puppy Preschool® instructors is imperative to enable a quality Puppy Preschool® to be delivered.

PACKAGE CONTENT & PRICING

- 5-week course outline
- Comprehensive owner's Manual (To print and handout to clients)
- PowerPoint presentation (for week 1 class)
